

**Company**  
Profile

# THE PRODUCTION GROUP

Service Production in Rome, full service audio, video, lighting. Creativity and leading Technologies. With us you have strong technical knowledge enriched by creativity and innovation.

**THE-P** was born in Italy but our team belongs to international experiences that can offer you a brilliant outcome from the project to the upshot.

Our team is a set of different skills, paths and knowledge, that guarantees to the customer a wealth of solutions both from a technological and a design point of view.

**THE-P** is ready to turn your aims and desires into reality.

## New Solutions

**EXPERIENCE,** We know to tell your story Through images, lights, sounds and Amazing settings.

## Customer Care

We **LISTEN** to the customer's needs and find the best solutions ever (scenographical and technical). A constant challenge in a market increasingly demanding on innovation, creativity, according to your budget.

## Corporate strenghts

A Large **CREW**, company vehicles for transportation, leading technologies, frequent investments, market planning to ensure our client the best results.

## Speed and Efficiency

Our working **METHOD** ensures speed and efficiency at every stage of the project, from budgeting, to production, to final implementation.

## Direction and Technical production

Direction, as the technical production of an event, requires team work and experience, technical expertise and creativity.

## Scenic design

Our projects are based on brief, client's objectives, locations, according to your budget and tend to a strong visual impact.

## Creative Technology Solution

We like to turn the event into a show, with creative and unconventional technological solutions... Sometime, best ideas come from a change of course.

# VIDEO

We like to make every event spectacular with large images, projecting on every type of surface.

We like to wrap the audience with lights and colors using the most modern equipment and the most cutting-edge software.

We like to amaze with our passion and experience.

# AUDIO

Evaluation of the location, type of event and aesthetics are the three keywords for choosing the audio system.

Words must be clear, musica must be the result of the harmony of sounds.

Sound engineers will accomplish all this through careful design and exploiting their acoustic sensibility.

## LIGHT

The lighting design in each event represent a focal point to trasmit messages, emotions , sensations.

Studying the location, giving color to a scenography, enhancing a stage, lighting up a detail, choosing the right lighting body, communicating with the light.

All this rapresent the common idea of THEP light designer.

## LOGISTICS

The logistic department of THE-P guarantees the management and movement of technologies and supports the technical department in the realization of events.

## TECHNIQUE

**5000 square meters** of warehouse with the latest audio, video and lighting technologies.
